School Officers Elected.

The regular annual school meeting of this city was held on Monday evening as provided by law. The attendance was not overly large, although there was a good attendance of representative people.

All of the old commissioners were re-elected to hold over another two years, the service they have done the public in the past being evidently appreciated. The commissioners elected were as follows:

First ward—W. H. Reeves.
Second ward—W. B. Brazou.
Third ward—W. F. Kellogg.
Fourth ward—Dr. J. J. Leuze.
Fifth ward—Otto Bain.
Sixth ward—E. Oberback.
Seventh ward—C. A. Hatch.
Eighth ward—J. W. Natwick.
Ninth ward—J. W. Natwick.

The report of the superintendent for the past year was read and it showed the city schools to be in a most flourishing condition. The report was a lengthy one, and was listened to with great interest by those assembled. The treasurer's report was also read and a committee appointed to audit same. This report after being audited, will be published in the local papers.

Mr. Public-spirited Citizen, Listen

You are vitally interested in making your town or city a bigger one. You want business brought to its doors. You want to see your neighbors prosper. You want to prosper. Is it not so? Then read how by carefully perusing the leading feature of our next issue, SOLVING AMERICA'S BIG BEAUTY PROBLEM is its title.

IT'S FOR YOU—READ IT! Some day you may be elected to public office, if you are not there today. Then you will exert yourself to better the conditions of your fellow men. Handsome buildings attract business. Business gets the money. This feature story discloses upon the fact that a community's beauty adds wealth to its coffers.

WHY? If you were buying a horse, which you wanted to be a good one, you wouldn't purchase that equine from an owner who showed the animal's qualities in a sham-shake, matched-up barn, would you? You would be naturally suspicious that the horse's qualities were faked onto the stability of his shelter. Same with men who buy from you. Read this story. It's right.

New Fish Law.

A new law governing the shipping of game fish in Wisconsin has been passed by the legislature, and is as follows:

It shall be unlawful and is hereby prohibited to sell, offer for sale, or ship or transport any game-fish between the 1st day of March and the twenty-fifth day of May next succeeding; provided, however, that this shall not apply to the possession, sale, or shipment within or without this state, of any pike or pickerel from natural frozen states imported from any foreign country; and provided further that any person, firm, or corporation handling pike or pickerel imported from a foreign country, shall keep a separate record of all shipments and consignments of such fish, and such records shall be open for inspection at all times to the state fish and game warden, or any of his deputies.

Got Sixty Days.

Ole Knutsen was arrested on Monday evening for disorderly conduct and taken before Justice Fritzinger on Tuesday morning where he was given a sentence of sixty days in the county jail.

It seems that Knutsen and a couple of friends were playing a game of cards in one of the local saloons and during the play the parties became involved in a brawl that ended in a scrap.

One of the parties was from a dam country, and he was seen next day making tracks for the tall timber, and it is entirely probable that he will think twice before he again comes to such a large city.

Telephones at Port Edwards.

All of the paraphernalia for the new telephone exchange at Port Edwards is on the ground and it is expected that it will not be long before the exchange there is in working order. A switchboard will be placed in the hotel, at which all the lines in Port Edwards will center and from which there will be two trunk lines to this city. The exchange there will start in with about twenty phones, and the whole system will be operated by common battery the same as the system in this city.

The New Moon Coming Soon Again.

—But not only spare Grand Rapids one day which will be March 27th. I am very sorry that I can spare only one day, but my time to heal is limited and I have too many sufferers at other places that wish to see me, and it will be impossible for me to attend the good people of the Rapids and vicinity any more than this one day, but will treat as many as my strength will allow me to. Remember the date, March 27th at the Anderson Hotel. Philip Yackel

RAILROAD MEN HERE

Meeting Held on Tuesday Evening to Discuss Prospective Plans for Building.

A meeting was held at the Forester hall on Tuesday evening at which there were a number of our representative business men as well as a number of gentlemen from Wausau who are interested in the building of the proposed electric line between this city and Nekoosa. Those from Wausau who were present were Neal Brown and Messrs. Ewing and Heskett, all of whom are interested in the Wausau line, and who also want to take stock in the line that it is proposed to build here.

Mr. Brown addressed those present on the subject of electric roads in general, and especially the one that it is proposed to build here, and his talk was both interesting and instructive. He told of some of the obstacles that had been encountered at Wausau, and stated that the same thing would be a part of the business here. He stated that in his opinion the proposed line would be a paying one; not one that would pay a large dividend, but still a fair profit on the investment.

A map of the proposed line as laid out by the company's engineer was also presented for the inspection of those present, which showed the entire line from here to Nekoosa. An estimate of the cost and expenses of equipping the line was also submitted which those present were invited to look it over, and as far as could be judged by a casual inspection the estimate was a conservative one.

Mr. Brown also stated that the Nekoosa-Edwards Company had donated all of the right of way wherever it passed over their land, and as this was fully three-fourths of the entire distance, the company felt that they were getting along nicely in this respect.

Short talks were given by others of those who were in attendance and the sentiment was strongly in favor of the proposed road, and not a word was said against it at any stage of the meeting.

It is expected that the company will ask for a franchise from the city in the near future, and after the franchise has been published it is proposed to hold a meeting for the benefit of those who want to know something about the project, and if they will attend the meeting the matter in all its details will be discussed and explained to anybody who has a desire to ask questions, so that when the matter comes up before the council the aldermen will be able to vote on the proposition as they understand the matter and not as somebody else has told them.

G. F. Steele, manager of the Nekoosa-Edwards company, was present, and gave a short talk on the position of his company in the matter, saying that they were heartily in favor of it, and would do all in their power to further the interests of the company. The fact of the company giving all of the right of way thru their land is abundant evidence of their good will toward the project.

Taken altogether the meeting was a most pleasant one and indicated that most of the people are strongly in favor of the proposed line, and that they stand ready to do all in their power to carry it along.

Game Warden Seizes Fish.

Stevens Point Journal.—Martin Tollefson of Scandinavia, a deputy game warden, spent Friday and today in the city inspecting the local fish market in response to complaint that certain markets were selling pike and pickerel contrary to the Wisconsin game laws.

On arrival here he found small quantities of these fish at several of the markets and promptly seized and confiscated them. The market men allege that these are Canadian fish and that they are therefore not subject to Wisconsin game law regulations. Mr. Tollefson claims they are. The marketmen purchased their supply from Green Bay wholesalers who for the most part guarantee their customers against loss in case of trouble of this kind.

While at Milwaukee recently in attendance at the automobile show, Bob Nash made arrangements with the Moline automobile company to handle that company's cars in this city. Mr. Nash ordered one of their cars, which is expected to arrive here in the near future and will be used as a demonstrator. The Moline people manufacture several different styles of cars, but the one ordered by Mr. Nash is a four cylinder, thirty horsepower machine weighing about 2000 pounds and has a detachable tonneau so that it can be made into a runabout. This particular style of car sells for \$1,500.

Lieutenant Gov. W. D. Connor and wife of Marshfield accompanied by their sons Richard and Gordon departed last week for a six weeks visit at the Dr. Witter home at San Jose, California.

Mr. and Mrs. Alfred Rember are happy over the arrival of a bouncing baby boy born to them on Tuesday.

A Delightful Meeting.

A very pleasant meeting of the Woman's Club was held on Tuesday evening at the home of Mr. and Mrs. J. W. Rockwell. The evening began with a six o'clock dinner and besides the regular members of the club, there were a number of invited guests present, among whom were Mrs. E. J. Clark, Mrs. E. B. Redford, Mrs. J. S. Thompson, Mrs. Henry McCall, Mrs. John E. Daly, and Misses Mary Reel, Estelle Ascher, Mary Brahany, Lillian Gaskill, Josephine Boucher and Miss Bowman.

Besides the two regular papers of the evening there was music by Miss Reel, who played Mendelssohn's Midsummer Night's Dream, readings by Miss Bowman, the Garden Scene from Julius Caesar, and responding to an encore, gave Miss Lill Brown Hale. Miss Ascher entertained those present with vocal music, her first selection being Macmureen, and responded to an encore with Tipperary Tune. There were also readings by Miss Brahany, who took the Nine Little Goldfishes for subject and responded to an encore with Tying her Bonnet Under her Chin. Mrs. Redford sang from Under Star, and upon being encored sang, Could My Song to Thee be Winging. There was also instrumental music by Miss Rose Rockwell, the entire evening being one of unusual interest and thoroughly enjoyed by those present.

Surveyors Again Here.

During the past week the surveyors who are supposed to be in the employ of the Wisconsin Central have been in the city and have been running lines to the riverbank apparently continuing the right of way that was laid out by them some weeks ago.

They are not giving out any more information at the present time than they did when they were here before, so that nothing much can be told of the intentions of the company. However, the officer they come here the more confidence the people have that there is going to be something done in the near future, and that the matter is not all bluff.

Plans Not Complete.

During a conversation with one of the officers of the Wood County National Bank on Saturday that gentleman stated that the plans for the new bank building were not complete as yet, but that they expected that they would be within a short time.

The indications are that the new building will be a pretty nice affair, and will be thoroughly up to date in every respect. A part of the stone has already been delivered on the ground, but there is still a lot to haul before this part of the work is complete.

Baby Wants a Home.

Ray, P. Peterson, superintendent of the Orphan's Home, Pilling Association of Wisconsin, was in the city this week on his annual visit. He said that he would be glad to find some good homes where a baby would be welcomed.

—"I was in Congress with Webster, Clay and Calhoun when they were in their prime days. The sawmill factory is running full blast. They are turning out the best lumber they ever made and also the most of it. They sawed a big white pine, some for Ernest Knipolo Saturday which cut out 960 feet of lumber. How is that for a country where the timber was all gone twenty years ago?

Not a word about baseball nowadays, notwithstanding the fact that the open season for this sport will soon be at hand. It begins to look very much as if the admirers of this sport were not going to bother themselves the coming season, so that we may not have much of a town.

The David Garrick company that played at the Daly opera house on Wednesday evening was one of the best that has appeared in this city for some time. There was not a dub in the whole show and the audience was well pleased with the production from start to finish. As the company had changed their schedule they played here again on Thursday night to a good house, and on Saturday evening they went to Nekoosa where they played to standing room.

Some of the papers in the state are doing considerable mourning because the state legislature did not see fit to appropriate \$50,000 for a Wisconsin exhibit at the coming world's fair. Well, we do not know of any other way for the state to make \$50,000 than to keep away from this same exposition. We believe in advertising and doing plenty of it, but we do not think that any amount of advertising in the west at the present time would do Wisconsin any good. The time may come when it will, but that time is not here yet. These big exhibitions are bound to draw largely from their own communities, and it is these people that will see whatever is exhibited. The travel at the present time is from east to west, and very few are going east, although the time will come when they will come back this way, and some of them will be glad to locate in Wisconsin.

On May 1, the express business on all lines of the Chicago, Milwaukee & St. Paul railway, Express company, will be taken over by the Wells-Fargo Express company. This includes the express business on the new Pacific coast extension, which is known as the Chicago, Milwaukee & Puget Sound railway. The Wells-Fargo company reaches every part of the country from coast to coast and shipments can be handled by them for great distances without having to be transferred to another company.

The local retail liquor dealers association has passed a new set of resolutions at a recent meeting held by them, and they claim they are going to live up to them. If they do so they will find that they have some friends in Grand Rapids after all, but if they do not, they cannot look for much consideration from the general public. There was a time when it seemed as if the laws governing saloons were made only to be broken, but it begins to look as if that time had gone by. People are beginning to insist that the laws be observed, and as they are good laws we can see no reason why they should not be followed out.

—Remember “Parsifal,” the best attraction ever at Grand Rapids. Wednesday, March 24th. Seats on sale March 24th.

Our old friend John D. Rockefeller has our most sincere congratulations, since we see that his company has been exonerated from ever doing anything wrong, and the fine of twenty-nine million dollars and some odd cents has been knocked out. Of course John is better fixed financially than some of us, and it is probable that he could have paid the twenty-nine millions and still had money enough left to buy his summer supply of golf balls, but at the same time we can appreciate how uneasy he must feel with the fact that the staring him in the face and every penny in order to meet the obligation in case it ever became necessary to pay it. It takes a long time to save up, twenty-nine millions of dollars, a penny at a time, and some people would get discouraged almost before they got started. John, however, wasn't that kind of a fellow, but he kept right on as if nothing had ever happened. It is a great relief to the general public to know that the Standard Oil company never got any rebates, that there is no such thing as a rebate, and it wouldn't make any difference if there was.

—“The First Violin,” Daly's theater, March 18th. Do not miss it.

—Miss Ella May Fitch as May Welterburn in “The First Violin” at Daly's theater Thursday, March 18th.

—The ladies of the W. R. C. will hold a sale of aprons and other articles in the R. Hall, Wednesday, March 19th. Supper will be served from 5:30 to 8 p. m.

The Ripon Glee Club expects to visit this city some time in April and give an entertainment. This organization has been here several times before and has always given them a most excellent satisfaction, and there is no question but what they will be favored with a good audience when they come the next time.

Charles & Lutz installed a new motor of the General Electric type in their sausage factory on Monday and since that time everything has been running in fine shape. With the machinery they have installed they will be able to manufacture a large quantity of sausage every day and will be able to supply a good sized trade.

—Do not miss it. “Parsifal” the biggest and best attraction ever in the city.

The Bliss orchestra has been preparing some special music for the Parsifal show which will be here in the near future. Manager Daly assures us that this will be one of the best productions that has ever visited the city and that people need not be afraid that what they will get their money's worth. The cast is said to comprise thirty people, and the company carries all their scenery with them for the presentation of the play.

Just four weeks from tomorrow, at about four o'clock a. m., numerous members of the male population of our city, who on ordinary occasions are peace-abiding and law-abiding, will be found roaming around in the purlieu, or bounding over the kitchen stove, or pouring a pot of coffee, while their better half sleeps the sleep of the just, for that will be the fifteenth of April. Many a man will wonder what the fifteenth of April has to do with a man getting up early in the morning and cooking his own breakfast, or going without any breakfast at all, but such men as these are not worth worrying about. They are men who put in all of the day and half of the night chasing the frisky and elusive dollar, whose sole ambition is to have a bigger bank account than their neighbor's. They don't know when the trout season opens. They like fish like to eat them. They are at times willing to take ten or fifteen minutes off from their daily routine of making money to eat a mess of brook trout if some friend will make them a present of them, but to catch them, well, I guess not. Why, a fellow with any business head on him at all could make enough money in a day to buy all the trout that ever swam in one of these little creeks, so you can see that it would be a waste of time for anybody with sense to fish for them. But you can't make the trout fisher believe anything of this kind. He's been up against his game before, and he knows just exactly what the sensation will be when the first trout grabs his fly four weeks from tomorrow morning. Maybe he cannot convey it to you in words, but he does not care very much, just so he is able to go on hand when the game opens.

—“The First Violin” will be presented at Daly's theater Thursday, March 18th by an excellent company headed by Truog's James and Miss Ella May Fitch under the direction of Truog's James.

—Wood & Reeves will sell you improved residences lots on good road, near factory district for \$50 each, which were assessed in 1905 for \$100, and the same amount by the board of review. Terms \$100 down and balance 80 cents per week. First year no taxes. Interest or mortgage, 65 cents to choose from at \$30 to \$75 on above terms.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities. See that it neglected might result in Bright's disease or diabetes. John E. Daly and Johnson & Hill Co.

Insist on Good Roads. Warhnam Couriers:—Cranberry growers ask little from the towns in which their property lies in the way of improvements. They pay a large part of the taxes of the towns and get very little benefit from the money paid out. Cranberry lands constitute no little part of the taxable property of the towns in the cranberry region and were it not for the taxes paid by the growers it would not be possible for the citizens of the towns to enjoy so many privileges.

It would soon only just that some consideration be given to the care of the roads that lay the golden egg. Of course it would be unreasonable to ask that the roads leading to individual farms be put in first class shape at the public expense, but it is not too much to ask that the main thoroughfares leading to the shipping points over which thousands of barrels of cranberries are carted, should have some attention.

There are many such roads that are in deplorable condition and over which the cost of carting is much greater than it would be were they put in a reasonable passable condition. If the growers would take this matter up and push it results could be accomplished far greater than by quibbling over the assessments.

Many growers have built roads at their own expense and many will continue to do so in order to have an outlet for their production in the market and should provide some relief for the conditions as they now exist in most of the cranberry towns, where in the fall long processions of teams pass over roads in which the sand reaches half way to the hubs and over which only half a load can be carried. If growers will not look out for their own interests it cannot be expected that anyone else will do it for them.

Dr. Ely's Book in Japanese. The text book on elementary economics written by Professor Richard T. Ely of the department of economics of the University of Wisconsin and Professor G. R. Wicker of Dartmouth College who received his doctor's degree at Wisconsin in 1900, has just been translated into Japanese by Kyungoro Ishizawa, formerly a graduate student in economics at the University of Wisconsin. This edition, which is to be used as a text book in the schools and colleges of Japan, contains a biography of Professor Ely whose portrait appears as a frontispiece.

Do You Want Bulletins?

If the farmers of this country want any of the bulletins issued by the government all they have to do is to drop a postal card to Congressman Elmer Morse at Washington. The bulletins issued by the government, however, cover a large range of subjects and in writing to Mr. Morse you should name the subjects in which you are most interested.

These bulletins are prepared under the supervision of the several government departments, and deal with every subject which the best experts in the government's employment are capable of handling. The bulletins are published in different series, preparation of new bulletins for the first series, the infatigability of the growing of corn, wheat, potatoes, and many other crops.

A great deal of valuable instruction is contained in the bulletins which deal with potato farming.
